

To receive your canvas print simply fill in the form below and return it with your image and payment to the following address:

Kenkaro
Media House
41 Crayford Way
Crayford
Kent

Step 1. Your image

Please enclose the image you require printing with your order form. This can be either a hard copy or image on CD. All images will be returned with the canvas.

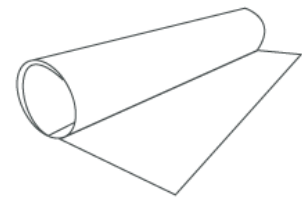

If you have more than one image please fill in a separate form for each image to be printed.

Digital images are preferred in a RGB Jpeg format. A 1 Meg picture will be large enough to print a canvas 400mm x 500mm. A rule of thumb is the larger the file size the better quality the print and the larger the image can be printed without distorting or going blurry.

Step 2. Select the frame edge finish

Please select whether you want your canvas framed or unframed.

All our framed canvases are stretched on to 40mm deep stretcher bars. Unframed canvases are rolled and sent in a tube.

Step 4. Would you like a colour effect?

If you require your image to be converted to black and white or sepia then please tick the relevant box. If you wish your image to remain unchanged and be printed as the original then please select as original.

Please tick one No, use original colours Yes, make it black and white Yes, use sepia tones

If you require one of our **Your Art** services then please highlight which one below, if not then please leave this blank. Prices for this service are an additional £25.00 on top of your chosen canvas size.

Step 5. Please select an edge finish

Please select the type of edge finish you require.

Bleed means the image is stretched out around the edge of the box frame. Bleed is also known as gallery wrap.

No bleed means the edges of the box frame are left white. This is ideal if the subject is close to the edge of the image.
